ANTITRUST STATEMENT

SPP strictly prohibits use of participation in SPP activities as a forum for engaging in practices or communications that violate the antitrust laws. Please avoid discussion of topics or behavior that would result in anti-competitive behavior, including but not limited to, agreements between or among competitors regarding prices, bid and offer practices, availability of service, product design, terms of sale, division of markets, allocation of customers or any other activity that might unreasonably restrain competition.

SUF AGENDA

ADMINISTRATIVE ITEMS

1. Call to Order Dana Boyer
 - a) Antitrust Statement
 - b) Review of Agenda

INFORMATIONAL

2. RTO Expansion Project Steve Davis (10)

TRANSMISSION SETTLEMENTS

3. Production Update
 - a) Transmission Metrics & Resettlements Leesa Oakes (5)
4. Project Updates
 - a) Z2 Order Matt Nokes (5)
 - b) CPP/HITT C1 Eric Johnson (5)
 - c) CHILLS/PAL Steve Davis (5)
5. RTWG Updates Jeff Harrison (5)

MARKET SETTLEMENTS

6. Production Update Lindsay Johnston (10)
 - a) Integrated Marketplace Metrics & Resettlements
 - b) WEIS Metrics & Resettlements
7. Market Project Updates Dana Boyer (10)
 - a) Fall 2026 Bundle
8. Working Group Updates Steve White (5)
 - a) Market Working Group (MWG)

CLOSING

9. Upcoming Meetings Dana Boyer (5)
 - o Thursday, July 9, 2026, 1-3pm
 - o Thursday, October 8, 2026, 1-3pm

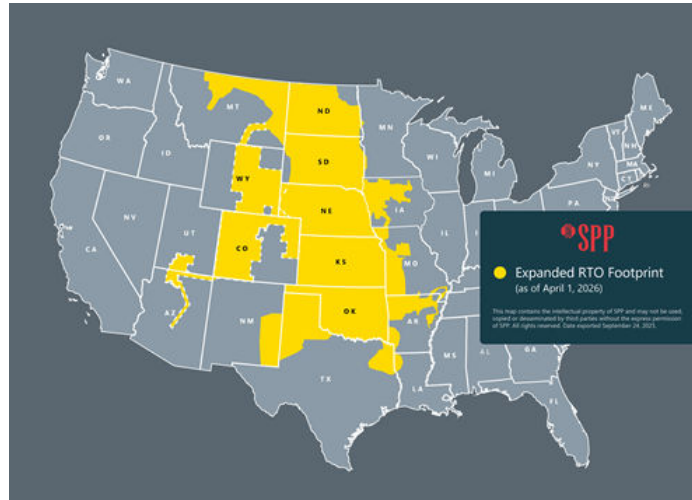

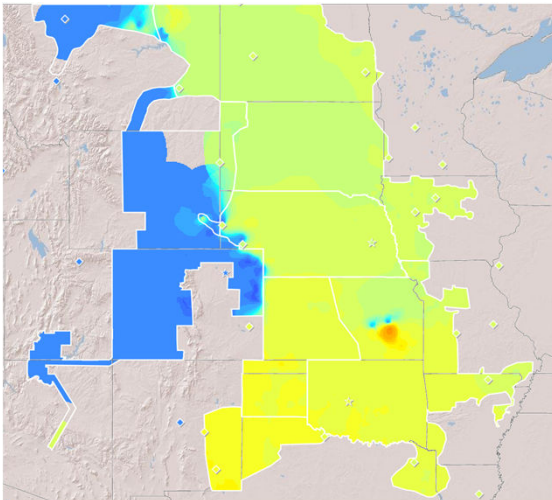

RTO EXPANSION PROJECT

STEVE DAVIS

RTOE STATUS OVERVIEW

NEWS & NOTES:

- The SPP RTO officially expanded across the Western Interconnection on **4/01/2026**. Thanks to all the stakeholders across all organizations that participated in the success of this launch. SPP Settlements looks forward to continuing to serve all participants (new and old) as we move forward.

KEY TAKEAWAYS:

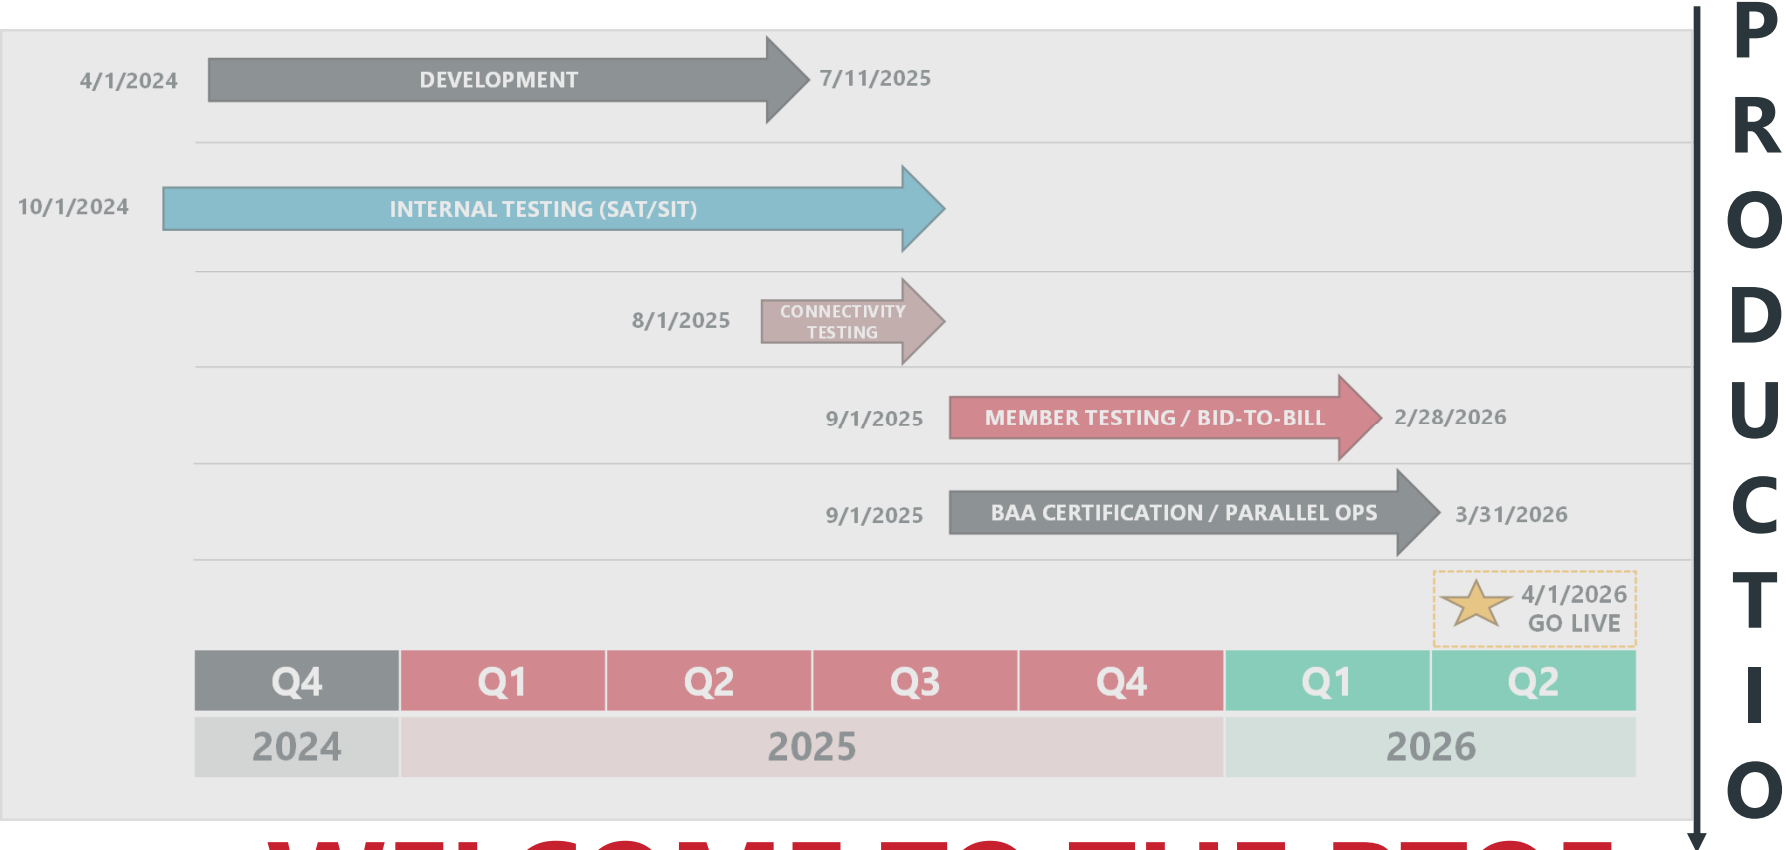

- Key links on the table to the right will be helpful to understand what changes the RTOE brings.
- While member testing has concluded, SPP Settlements remains available via [RMS](#) to answer any questions you have.

INQUIRY OF THE QUARTER:

Q:

When is NHL and MVAR data due from Transmission Customers?

116

Inquiries for January - March

29

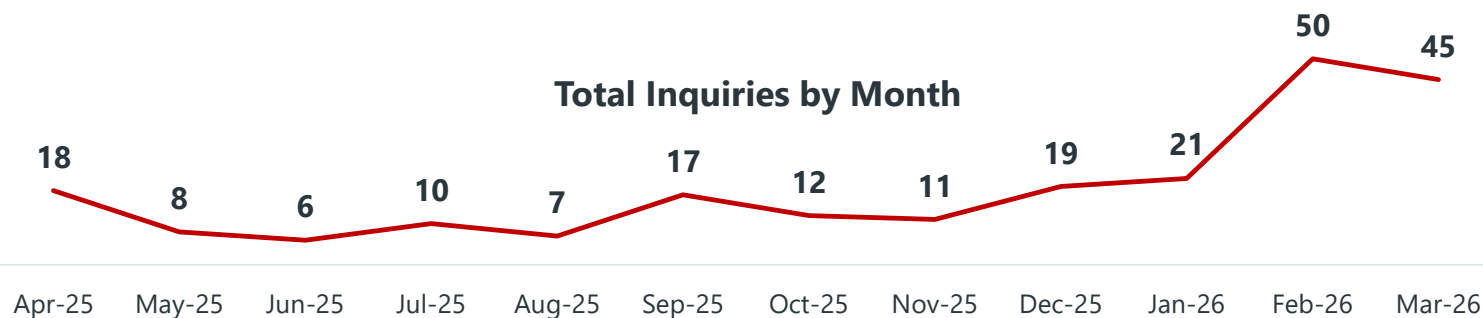

Related Inquiries

A: Transmission Network customers will need to submit Network Hourly Load (NHL) and applicable Qualified Generator MVAR (Schedule 2 billing) data for the March 2026 operating period in the SPP Portal by **noon central time on 4/27/2026**. We encourage you to submit your files before that date to allow time for resolution of any errors. For data submittals, be aware that with the time change on 3/9/2026 the 2:00 AM hour drops from that day, and the time zone offset value changes from 06:00 to 05:00 for 3/9/2026 03:00 onwards. Confirm the Network Load TSRs submitted in the NHL files. TSRs can be verified in OASIS.

If Network files are not received for month end processing, we will use estimated data. **To update that data, open a [Dispute ticket in RMS](#)**, and it will be processed in that month's resettlement (typically 10 months later).

If you have any questions, concerns, or Settlements related questions, please open an [Inquiry in RMS](#).

QUESTIONS

RMS: <https://rms.spp.org>

- Issue Subtype 1: Settlements
- Issue Subtype 2: Transmission

TRANSMISSION SETTLEMENTS: **Z2 REMAND ORDER**

MATT NOKES

Z2 REMAND ORDER

PROJECT UPDATES

- SPP submitted compliance filing to FERC on November 3rd, which included accrued refund balances through 10/31/2025
- E-mails with estimated balance letters have been sent to affected parties
- Awaiting FERC guidance to proceed
- January technical was held in [January 2026](#) as a refresher on the status of the Z2 Remand Order. Target date: January 26, 2026.
- Visit the Z2 web page at www.SPP.org/Z2
- Periodic briefings will be conducted to share resettlement information, announce project milestones, and solicit stakeholder feedback.
 - Events to be announced via SUF, CUF, and MOPC exploders; published on SPP.org/Z2.
- New Z2 Resettlement Exploder will be used to announce project updates, events, etc.
 - Sign up on SPP.org

QUESTIONS

RMS: <https://rms.spp.org>

- Issue Subtype 1: Settlements
- Issue Subtype 2: Transmission

TRANSMISSION SETTLEMENTS: **CPP / HITT C1**

ERIC JOHNSON

CPP EFFORT

- RR684 Consolidated Planning Process details the complete consolidated planning process. For Settlements there will be GRID-C payments coming from GI customers to offset the cost to Transmission Customers/Owners to lower their Schedule 11 charges.
- Each project will have an ERIS/NRIS payment type that will be used to determine the credit amounts for Sub-region/Regional Schd11 charges.
- This will change the Transmission Settlement reports with new attributes, new determinant names, new/updated charge type/credit type names.

HITT C1 EFFORT

- RR665 HITT C1 effort establishes a Sub-Regional Cost Allocation for Base Plan Funded ATRRs.
 - With this RR there is the creation of 5 sub regions.
 - These subregions will have ATRR/Rates for projects starting after December 11th 2025.
- Conversations are on going about subregions in the west.
- This will change the Transmission Settlement reports with new attributes, new determinant names, new/updated charge type/credit type names.

CPP & HITT C1 RELEASE

- Due to these two efforts being intertwined for Settlements there will be a combined effort.
- CPP / HITT C1 Release
 - Member testing expected Q4 2026 thru Q1 2027.
 - Expected to go live towards the end of Q1 2027.
- We will have more updates with expected changes as requirements finish up.

TRANSMISSION SETTLEMENTS: **CHILLS / PAL**

STEVE DAVIS

CHILLS / PAL

- [RR 720](#) – Conditional High Impact Large Load. Tied to RR696. Implementation Q2'26-Q3'26. MOPC/Board approved Jan'26
- Incorporates several Tariff updates to achieve the implementation of serving High Impact Large Loads (HILLs) on a non-firm/conditional basis. Offers several benefits to the footprint at large.
 - Hills qualifications defined in RR696
- Creates a new Non-Firm product to be transacted via Schedule 15
- FERC Deficiency letter received March '26, asking for clarifying information within 30 days. Responses being created now.
- PALS – Price-Adaptive Load Service, RR forthcoming.
 - Public Stakeholder/Interested Parties Forums held March '26
 - October '26 MOPC Target

TRANSMISSION SETTLEMENTS: RTWG UPDATE

JEFF HARRISON

RTWG UPDATES

- Nicole Offutt (SPP) noted for April there are annual updates for Springfield and Northwestern. She also noted that the 4/1/26 Go-Live will be bringing in five new zones and multiple transmission owners. The new RRR file will be available around April 9th or 10th .
- Steve Davis (SPP) reiterated the go-live for expansion is April 1st, 2026, and reminded the group that their invoices would be impacted in the April 2026 settlement month. No movement on Z2. He mentioned the upcoming PALS forums.

WEIS INQUIRY OF THE QUARTER:

Q:

Once RTO Expansion is in production, will SPP still publish WEIS statements include S53 and S120 settlements?

A:

Yes, WEIS Statements will still publish after the final day of production for the WEIS Market. The S53, S120, or any additional resettlements will post in their normal cadence.

QUESTIONS

RMS: <https://rms.spp.org>

- Issue Subtype 1: Settlements
- Issue Subtype 2: 'Market' or 'WEIS'

MARKET SETTLEMENTS: **PROJECT UPDATES**

DANA BOYER

FALL 2026 RELEASE

Finalizing the list of items for our next Integrated Marketplace release in Fall 2026. This is the current list of potential items. Once this list is finalized, it will be communicated and a MIPO (Member Impacting Project Overview) will be provided:

- **RR623 – [System Support Resources](#)**

The objective of this RR is to provide a compensation mechanism to incentivize continued operation of Resources whose studied retirements have identified one or more Network Upgrade(s) as necessary to address reliability impacts to the Transmission System and are unable to be completed prior to the projected retirement date. The proposed compensation mechanism will develop a unique contract for each retiring Resource that details the eligible costs. Two additional charge types would be created in Settlements to support this.

- **RR728 – [DAMKT VER Participation](#)**

The objective of this RR is to drive market efficiency, price transparency, and price convergence between the Day-Ahead Market and Real-Time Balancing Market to encourage participation in the Day-Ahead Market that reflects Real-Time quantities. This RR includes changes to the RUC MWP Distribution charge type.

Status

- Planning

Tentative Dates

- Member Testing: August – September 2026
- Production Date: October 2026

What questions do you have?

MARKET SETTLEMENTS: **WORKING GROUP UPDATES**

STEVE WHITE

MWG UPDATES

Approved by MWG in March meeting:

- **RR748 MSR Calibration Profiling Enhancement** – The objective of this RR (Revision Request) is to modify the calibration calculation to more accurately determine the calibration uplift for MSRs that charge and discharge within the same hour. This was an expedited change that was implemented with RTO Expansion Project effective on 4/1/2026. Calculation changes are included in the posted [Settlements Calculation Guide](#).
- **RR750 DRR Calculated Option Clean-up** – This RR modifies the calculation that determines a Demand Response Resource's adjusted meter value by changing the comparison between the baseline value and state estimator to the comparison of the baseline value and the submitted meter as stated in the Tariff. This was an expedited change that was implemented with RTO Expansion Project effective on 4/1/2026. Calculation changes are included in the posted [Settlements Calculation Guide](#).
- **SIR846 Demand Response Resource Baseline Methodology** – This SIR lays the foundation to create a standard for calculating/determining the baseline for Demand Response Resources. Currently, there is no standard to how the baseline value should be calculated.
